

CSS Final Project: What's Today?

Somin Park, Emily Gill, Radhika Patel

2025-12-06

Section 1

Introduction

What's Today?

- People sometimes struggles with what leisure activities would they do.
- Suggest various activities according to individual circumstances by examining how people actually spend their time.

Section 2

Data and Methodology

American Time Use Survey (ATUS)

- Existing datasets (US Bureau of Labor Statistics)
- Measures the amount of time people spend doing various activities
- Merging Resp, Roster, & Activity files
- Selecting relevant columns, recoding numerical codes to text labels
- Descriptive statistics (frequency distribution, mean duration, etc.)

- Scrapped the website
- Chromote

Section 3

Application Demonstration

Application Demonstration
